

Customized Dispenser

The Milk Chiller™ from Frieling is a dairy cooling and portion-control serving unit that now offers customized logo display. It holds a half-gallon dairy carton or plastic container and features an easy-to-read LCD display window, temperature monitoring, and low-level monitoring. The machine comes in either a black or brushed steel finish and operates on less than 50 watts of electricity—less than a standard light bulb. Call 800-827-2582 to contact Frieling and learn more.
